Subject: as requested -comments for Alton Gas information

Hi Helen,

As per your request, we would like to provide the following comments from ICE: 

Following a review of the submission, ICE has determined this proposal would represent a modification to the Facility. In accordance with Condition 3(g) of Industrial Approval 2008-061384-A03, an amendment will be required prior to implementing any modifications to the mixing channel, including the addition of a fish barrier or maintenance of the channel such as dredging.

Thanks,
Paula

Yes, we would like to get ICE's perspective.

Thank you,
Helen

Subject: Email with information

Hi Helen,

I just wanted to confirm if you (EA branch) required written comments back from ICE as well to your email on Alton? If so, can we have a bit more time to respond?

Thanks,
Paula
